SKILLS

- MongoDB, Express.js, Node.js, React.js, MySQL, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS
- AWS, Firebase, Git/GitHub, Data Structures and Algorithms, Jest, Vitest, Restful APIs, jQuery, AJAX, C++, Java

PROJECTS

TripTide- Travel planning for Road Travelers – (In Progress):

- Developed and maintained a responsive website that integrating route-based location suggestions and personalized itinerary management, resulting in a 30% faster trip planning process.
- Built a custom MongoDB location database with 400,000+ documents, integrating multiple APIs to enhance data accuracy.
- Implemented email verification, OTPs, and JWT for security, ensuring scalability and performance optimization.
- **Technologies:** ReactJs, MongoDB, Express.js, Node.js, Mapbox API, Unsplash API, Wikidata API, Redux, nodemailer.
- [GitHub](#) | [Live Site](#)

DailyDo - To-Do List Application:

- Developed a to-do list app with React.js and TypeScript, increasing user productivity and user experience by 40%.
- Wrote clean, maintainable code with unit tests, resulting in a 30% reduction in bugs.
- **Technologies:** React.js, TypeScript, Tailwind CSS, IndexedDB, Vitest.
- [GitHub](#) | [Live Site](#)

Bank Website:

- Developed a responsive bank website using the MERN stack, featuring user registration, login, account management, and transactions. Utilized React.js for dynamic UI, bcrypt and JWT for authentication, Context API for centralized state management, and Axios for seamless API interactions.
- Implemented an admin panel with real-time charts and statistics using React Chart and Material React Table, enabling user management and transaction monitoring.
- [GitHub](#) | [Live Site \(User\)](#) | [Live Site \(Admin\)](#)

OLX-Clone:

- Developed a dynamic OLX clone using React.js with Firebase for authentication, Firestore for database management, and Storage for image handling, and i18n for language switching between English and Hindi.
- [GitHub](#) | [Live Site](#)

Netflix-Clone:

- Built a responsive Netflix clone using React.js, integrating the TMDB API via Axios for dynamic movie/TV show data, with state management and asynchronous data fetching for a seamless user experience.
- [GitHub](#) | [Live Site](#)

Shopping-Cart:

- Created a secure and user-friendly shopping cart application using Express.js, Node.js, MongoDB, and Handlebars, integrating Razorpay for payments, Bcrypt for user security, and file upload functionality.

CERTIFICATIONS

- My SQL Basics Issued by:Great Learning, [\[Certification Link\]](#) **12/2024**
- Introduction to TypeScript Issued by: Great Learning, [\[Certification Link\]](#) **10/2024**
- Front End Development Libraries Issued by: freeCodeCamp, [\[Certification Link\]](#) **06/2024**
- JavaScript Algorithms &Data Structures(Beta) Issued by: freeCodeCamp [\[Certification Link\]](#) **06/2024**
- Responsive Web Design Issued by: freeCodeCamp, [\[Certification Link\]](#) **05/2024**

EXPERIENCE

Chegg India & Photomath

10/2022 – 02/2024

- Analysed and solved complex mathematical problems and mechanical engineering questions, delivering accurate solutions within deadlines and effectively managing time to assist students.

EDUCATION

- Graduate Aptitude Test in Engineering (GATE), All India Rank:**5525** **03/2020**
- B. Tech Mechanical Engineering CGPA:7.43, TKM College of Engineering Kollam, Kerala **09/2015 - 07/2019**
